

Manulife SGD Income Fund

Regular SGD income from Asian opportunities*

- ✓ Asian bonds delivered better risk-adjusted returns than most other asset classes
- ✓ Capture regional investment opportunities in SGD terms
- ✓ Asia continues to deliver strong economic growth compared to the rest of the world

*The intention of the Manager to make the quarterly distribution and the distribution yield for the Fund is not guaranteed, and the Manager may in future review the distribution policy depending on prevailing market conditions.

Asian bonds offer steady yields

✓ **Asian bonds have delivered attractive risk - adjusted returns**

Asian investment-grade corporate bonds (ex-Japan) and Asian high-yield corporate bonds (ex-Japan) offered better risk-adjusted returns than most asset classes.

Receive potential regular income*

Potential **Quarterly payout***

Additional income options

Intended payout of 6% p.a.*

Decumulation share class[§]

Potentially higher income that draws partially from your capital to aim to provide additional, stable and intended monthly income while staying invested for potential growth.

Intended payout of up to 4% p.a.*

Distribution share class

Potential regular pay-outs as alternative income stream.

* The intention of the Manager to make the quarterly distribution and the distribution yield for the Fund is not guaranteed, and the Manager may in future review the distribution policy depending on prevailing market conditions.

§ The Decumulation Classes are intended to be de-cumulating where the intended distribution rate may result in a substantial amount of the initial capital being returned to investors. This may, over time, cause the NAV of such Classes to fall. Where the NAV of such Class falls below the minimum number of units of the Class, the Manager has the absolute discretion to terminate the relevant Class.
